

Wanted to Buy

Gasket

To date I have seen, either in the flesh or in a picture, a 1924 Peerless Boat Tail, a 1926 Peerless Tourer & I own a 1929 Peerless 6-81. The 29 is an 18C, the 26 is an 8U, the 24 – I have no idea!

They are all the same gasket, with different listings as below. 8UA-505 covers all the following 8U, 11U, 14U, 15U, 18U, 12C, 14C, 15C, 16C, 18C.

I am searching for a gasket for the above engine/head that suits my 1929 Peerless 6-81 (18C). I have a cracked head & at this time I am hoping a local engineering company may be able to fix the cracks. No guarantees. I would like to find a complete engine with a good crack free head.

I am willing to travel to pick up (hopeful, my location is Narrabri NSW) or organise transport to deliver.
